- Deprecate the dialplan

Last year's goals

- Git!

- Documentation

- Asterisk as a media application server

- ~~Deprecate the dialplan~~

- Project moved to Git in May
  - Asterisk
  - TestSuite
  - Repotools
  - Infrastructure

- Infrastructure
  - Gerrit
  - Zuul
  - Jenkins

- Mirrored on Github

- Approximately 1400 reviews since May

Infrastructure

Documentation

- Lots of new pages on the wiki

- Super Awesome Company

- "Basic PBX"
    - PJSIP devices
    - SIP provider
    - Voicemail
    - Conferencing

ARI Improvements

- Hold Intercept

- Continue to label

- Redirect (external)

- Originate to priority label

- Originating channel during creation

- Push configuration

- Module manipulation

- Log manipulation

- Connected Line events

- Contact/Peer Status events

- "All" subscriptions

What is the future?
